MDT CADD Update Notification

Subject: MDT CADD Files for Detailed Drawings

Review and Approval:
MDT Construction Engineering Services Bureau
MDT Highways Bureau – Road Design

Date: 12/21/2020

Software/Version: MicroStation version 08.11.09.916; Power GEOPAK version 08.11.09.918

Workspace(s): Legacy (Geopak) and Enhanced (OpenRoads)

Impacts: MDT Detailed Drawings DGN File Access Locations

Update Reference Number(s): CU-5048, CU-10334

Update

Detailed drawing CADD files have been located in a variety of directories with some of those directories not being current. To remedy this, the current dual unit detailed drawings have been relocated. All other English and Metric detailed drawing dgn files are archived.

The CADD dgn detailed drawings files will no longer be accessible from the Legacy or Enhanced workspace "\Workgroup\STDDET" folder. Going forward, the current files can be downloaded as needed directly from the internet Detailed Drawings page via the "CADD files for Detailed Drawings" link:
