Using the Command 3

OVERVIEW

The **Label Section Sheets** command will place a sequential number near each section view sheet in model space to aid in locating and identifying a specific section view sheet quickly.

The **Label Section Sheets** command is developed and provided by WisDOT.

USING THE COMMAND

1. Type **MDTLabelSectionSheets** at the command line or press the **Label Section Sheets** ribbon button.
2. Enter text size. (5.000 is default.)
3. Sheet selection [All Individual] <Individual>:
    a. Select All section view sheets and label at once.
    b. Select Individual section view sheets. Press **<enter>** when done.
4. Section view sheets will be labeled at the top of each sheet in the format “Sheet # of #”.
