USING THE COMMAND

1. Type **MDTTLENGTH** at the command line or press the **Total Length of Objects** ribbon button.
2. Select one or more objects. (Valid selections are lines, polylines, multilines, arcs, circles, ellipses, splines, regions, and/or polygons.)
3. When done selecting objects, press **<enter>**.
4. The total length of all objects will be reported at the command line.
5. (Optional) Press **<F2>** on keyboard to open the AutoCAD Text Window to see result.
