Summary of Changes to MDT Materials Manual
(Refer to Individual Procedure for requirements)

June 2026 (June 25, 2026 Letting)

- Section 200
    - MT 207 – Revised

- Section 600
    - MT 603 – Revised

- MT 601
    - ***Scope*** - Revised
    - ***Aggregate*** – Updated acceptance requirements for Soils for Soil Survey (PC 2)
    - ***Concrete*** - Updated acceptance requirements for Class Structure Concrete (551.03.02.09)
    - ***Excavation*** – Updated acceptance requirements for Special Borrow (203.01.00.02)

November 2025 (November 13, 2025 Letting)

- MT 601
    - ***Scope*** – revised to include Manufactured Products
    - ***General*** - Added Buy America requirements to Manufactured Products (denoted BAM in Index)

October 2025 (October 9, 2025 Letting)

- Section 400
    - MT 422 - Revised

- MT 601
    - ***Aggregate*** – Revised sample size requirement for Riprap Source Approval (PC 9)
    - ***Bituminous*** – Added Binder 76-34 (702.01.01.05); Added Binder 64E-34 (MSCR) (702.01.01.08)
    - ***Concrete Sealant*** – Added Rapid Set Patch Material (717.03.01.01)
    - ***Fencing*** – Removed Deadman/Anchor (712.02.12.01)
    - ***Lighting, Signals & Communication*** – Removed Guys and Anchors
    - ***Building Materials*** – Removed Non-Precast Picnic Shelter (BM.699.01.06)

- Editorial/Clarification Changes: MT 321

Summary of Changes to MDT Materials Manual
(Refer to Individual Procedure for requirements)

January 2025 (January 9, 2025 Letting)

- Section 200
    - MT 202 – Revised

- Section 300
    - MT 331 - Revised

- MT 601
    - ***Bituminous*** – Added note for Emulsions acceptance of Saybolt Viscosity
    - ***Crack Sealant/Joint Material –*** Removed Crack Sealant (403.02.00.01) and combined acceptance requirements with Joint Material (707.01.01.01); Renamed Crack and Joint Sealing Material (707.01.01.01)
    - ***Concrete*** – Updated acceptance requirements for Class Structure-Low Slump Concrete (551.03.02.17)
    - ***Lighting, Signals, & Communication***
        - Renamed Electrical Submittal (703.00.00.00) to Electrical Submittal – Steel and Iron
        - Added Electrical Submittal – BABA (703.00.00.01), Electrical Submittal – Manufactured Product (703.00.00.02), and Electrical Submittal – Other (703.00.00.04)
    - ***Steel*** – Updated acceptance requirements for High Tensile Strength Hex Bolts (711.06.00.01)

June 2024 (June 27, 2024 Letting)

- Section 200
    - MT 212 – Revised reporting requirements
    - MT 229 – Revised reporting requirements

- MT 601
    - ***Aggregate*** – Updated Specification Table citation and acceptance requirements Rip Rap Classes 1, 2 and 3 (701.06.02.01, 701.06.02.02, 701.06.02.03); Added Ancillary Armor Class 1 (701.06.04.01) and Ancillary Armor Class 2 (701.06.04.02); Removed Bank Protection Types 1 to 4 (701.07.00.01, 701.07.00.02, 701.07.00.03, 701.07.00.04)
    - ***Crack Sealing*** – Added Mastic Crack Filler (403.02.00.03)
    - ***Lighting, Signals, & Communication*** – Revised acceptance requirements for Conductor; Added Optical Cable/Fiber Optics
    - ***Steel*** – Added High Tensile Strength Control Bolts (711.06.00.02); Revised acceptance requirements for High Tensile Strength Hex Bolts (711.06.00.01)

- Editorial/Clarification Changes: MT 404
