CURB RAMP SCORING & PROGRESS

HOW CURB RAMPS ARE SCORED

DEMAND (1–10):

How close a ramp is to destinations like government offices, transit, public places, and employers. A higher score means more public demand.

COMPLIANCE (0–10):

The number of non-compliant features. A score of 0 means the ramp is fully compliant.

COMPOSITE (0–100):

Demand multiplied by compliance. Higher scores indicate higher need.

PROGRESS FROM 2021 TO 2026

MDT DISTRICT	Curb Ramps Added to Inventory	Improvement in Average Compliance Score	Improvement in Average Composite Score
Missoula	+41	10.1%	10.8%
Butte	+170	9.9%	8.0%
Great Falls	+103	0.0%	3.4%
Glendive	+199	19.3%	17.1%
Billings	+35	6.9%	14.8%
Statewide	**+548**	**10.0%**	**11.2%**

Note: Scoring results are contained in Appendix C, and progress details are in Appendix E.
