2026 Construction:

Phase 3 - Flowing Wells East & West
MDT and contractor Central Specialties, Inc. will continue reconstruction of phase three, Flowing Wells East & West, in spring 2026.

Phase three starts 2 miles west of the Flowing Wells Rest Area and extends about 7 miles east, crossing the intersection with Montana Highway 24 (MT 24). This phase also involves replacing five aging timber bridges, three of which currently have load postings.

Phase 4 - West of Brockway-West
MDT and Riverside Contracting Inc. will begin reconstruction of Phase Four, located west of Brockway, in the spring of 2026. This phase starts at the eastern edge of the Flowing Wells East & West project, approximately 14 miles west of Brockway, and extends eastward for roughly 7 miles.

For more information, visit
www.mdt.mt.gov/ pubinvolve/hwy200jordan/.

Adjacent MT 24 Projects - Flowing Wells-North and North of Flowing Wells-North
MDT and Central Specialties, Inc. will resurface almost 20 miles of MT 24 starting in spring 2026.

Flowing Wells – North begins at the intersection of MT 200 with MT 24 at the Flowing Wells Rest Area and extends north for almost 10 miles, to just north of Shed Creek.

North of Flowing Wells - North begins at Shed Creek and extends north for almost 10 miles, ending approximately 2 miles north of McGuire Creek Road.

STAY IN THE KNOW

Regular project updates will be provided throughout construction.

HWY 200 JORDAN TO BROCKWAY

SLOW FOR THE CONE ZONE!

When traveling through the construction zones, anticipate traffic control measures, lane reconfigurations, and reduced speed limits, which may result in short delays of up to 15 minutes.

Motorcycle Advisory for MT 200 and MT 24: Gravel surfaces may pose added concerns for motorcycles. Motorcyclists are strongly encouraged to take an alternate route.
